

# Inauguration of Automated Coagulometer

## 'Satellite Max ' - Stago

The Inauguration of New Automated Coagulometer was done with training of Hematology staff. This machine does complete coagulation assay PT, APTT, Fibrinogen, Di-dimer(last two quantitative), mixing studies, quantitative factor assays, lupus screen, DRV screen, Protein C, &S, complete Thrombophilia assay. Individual factor deficiency including VWF deficiency and much more. This will surely help us to give our patients quality results.

We thank our Hon. Director Sase sir and all the administrative team including purchase Incharge to make this machine available.
